

**Amendment to H.R. 6395**  
**National Defense Authorization Act for Fiscal Year 2021**

**Offered by Mrs. Luria of Virginia**

In the appropriate place in the report to accompany H.R. 6395, insert the following new Directive Report Language:

Report on Regional Maintenance Centers

The committee directs the Secretary of the Navy to report to submit a report by January 31, 2021 on the performance of Regional Maintenance Centers in ship maintenance projects including contract award relative to established standards, availability on-time completion, and growth relative to award value. The report must include the Secretary's assessment of causes and necessary corrective actions and report on each recommendation made in GAO Report 20-370. Additionally, the report must compare the performance of the three regional maintenance centers and report upon the promotion and the administrative screening of officers in the grade of O-4 and above from each of these commands so the committee may evaluate how the Navy rewards success of effective maintenance of our nation's surface fleet.
